

Grandmothers for Refugees is a national movement nearing 2000 people advocating for and on behalf of asylum seekers and refugees. We recognise the humanity of those who seek refuge from persecution and their right to protection. We promote compassionate, globally responsible policies and attitudes towards those seeking asylum in Australia.

Grandmothers for Refugees is a national movement nearing 2000 people advocating for and on behalf of asylum seekers and refugees. We recognise the humanity of those who seek refuge from persecution and their right to protection. We promote compassionate, globally responsible policies and attitudes towards those seeking asylum in Australia.

We are asking for:

- A process to consider the cases of 10,000 to 12 000 asylum seekers who
 have been waiting for ten years for a fair assessment of their claims;
- Urgent attention to family reunion applications for those granted permanent protection;
- Transfer to Australia of asylum seekers in PNG who wish to come here and who were sent there by Australia;
- Adequate economic, social, health and educational support for all refugees, people seeking asylum and their families, and
- Continued release of those seeking asylum from locked and community detention.

Membership is free and we encourage you to join. You do not need to be a grandmother and we welcome Friends of Grandmothers (FROGs). We are organised by federal electorate with groups meeting as they can, often quite informally. Members do what they can, when they can. Activities include sharing learnings and information on refugee matters, advocacy by writing to the media and politicians, meeting with politicians, particularly local members, vigils, speaking to or distributing information at community events to raise awareness.

To join us, to learn more about the challenges and situations facing many refugees and asylum seekers who have sought shelter from Australia, or to assist in advocating on their behalf, just visit our website.
